A 1:00pm EST start is fine.

I thought about that as soon as I hit send. Will starting at 1:00 EST interfere with your lunch?

Yes, Wed. Oct. 29 works for me. Is the start time 1:00pm CST or 1:00pm ET?

Does 1:00pm next Wednesday, October 29<sup>th</sup> work for you? I plan to provide this as a follow up option for any agency representatives that cannot attend today's webinar.

Hi Virginia,

I have not forgotten about you. I was trying to see if any other agency needed a separate timeframe before I confirmed the date of the additional meeting.

Kara
